

REGENEXX ADVANTAGES

Regenexx uses your body's natural healing agents to replace the need for up to 70% of elective orthopedic surgeries.

Your stem cells and blood platelets are concentrated in our on-site orthobiologics lab and injected under image guidance into the precise area of your injury where they treat your damaged bone, cartilage, muscle, tendon, and ligament tissues. With Regenexx, you can get back to doing what you love without invasive surgery and lengthy recovery.

Less risk for complications or other side effects

Minimally invasive

Outpatient procedure

Greatly reduced recovery time

REGENEXX NATIONAL NETWORK

COVERED LOCATIONS

60+ CLINIC LOCATIONS
IN THE UNITED STATES

Regenexx has the only national network of Interventional Orthopedics clinics. Each Regenexx physician receives hundreds of hours of hands-on training in our proprietary procedures to make sure that every patient receives the highest quality of care.

YOUR **ALTERNATIVE** TO ORTHOPEDIC SURGERY

Can you heal without surgery?

We've found Regenexx procedures have replaced the need for up to 70% of elective orthopedic surgeries with our minimally invasive approach. Regenexx has helped thousands return to normal function with limited downtime and without invasive surgery.

The procedure experience

Regenexx procedures are injection-based, outpatient procedures. On procedure days, blood or stem-cells are collected in the morning, processed in our on-site lab, and reinjected under ultrasound and/or fluoroscopy guidance in the afternoon. Most patients describe only moderate discomfort, and patients are encouraged to re-engage in activity within a week following the procedure.

Next Steps

A dedicated patient liaison, who understands Laitram's benefits, will help you through the process of scheduling an evaluation with a Regenexx physician and will walk you through your next steps at a clinic near you.

To speak with a Laitram Regenexx Patient Liaison, call **866-623-9001** or visit regenexxbenefits.com/laitram to learn more about Regenexx as a covered benefit.
